PROFESSIONAL EXPERIENCE

Nagarjuna College of Engineering and Technology (NCET)

Bengaluru, India

Cloud Computing Intern

April 2024 – Present

- Provisioned and configured 15+ AWS and GCP services covering compute (EC2/GCE), storage (S3), IAM, and networking (VPC), reducing setup latency by 30%.
- Executed 10+ cloud deployment labs featuring high-availability virtual machines, auto-scaling groups, and CloudWatch monitoring pipelines.
- Engineered multi-agent AI prompt-engineering workflows across a 6-day intensive certification, boosting task execution efficiency by 40%.

TECHNICAL SKILLS

- Programming:** C, C++, Python, Java, SQL, Object-Oriented Programming (OOP)
- Cloud Platforms:** AWS, Microsoft Azure, Google Cloud Platform (GCP), Azure Portal
- Web & Database:** HTML5, CSS3, React.js, Node.js, Express.js, RESTful APIs, Middleware
- Tools & Frameworks:** Git, GitHub, VS Code, Power BI, Deep Learning (PyTorch/TensorFlow), REST APIs, Tableau
- Core CS:** Data Structures & Algorithms (DSA), OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

Real-Time Cyber Threat Detection System (Cloud SIEM)

Aug 2025 – Present

Cloud SIEM, Log Analytics, Anomaly Detection, Machine Learning

- Developing a cloud-native SIEM pipeline processing 10,000+ daily security logs from 5+ heterogeneous enterprise sources.
- Programming automated log parsers, real-time alert thresholds, and interactive security dashboards to monitor 100% of telemetry.
- Implemented machine learning anomaly detection rules targeting a 35% reduction in security incident response times.

Early Skin Cancer Classification System

Jan 2025 – Mar 2025

Python, Deep Learning, Image Preprocessing, Scikit-Learn

- Built an end-to-end computer vision deep learning pipeline to process and classify 1,000+ high-resolution dermoscopic image samples.
- Attained 92%+ accuracy through normalization, data augmentation, and hyperparameter tuning.
- Cut diagnostic false-negative classification errors by 15% through evaluation of Precision, Recall, and F1-score metrics.

Cloud-Native Student Attendance System

May 2024 – Jun 2024

Microsoft Azure, Cloud Storage, Authentication Services, SQL

- Architected a 3-tier Azure platform integrating authentication, scalable storage, and database management for 500+ daily records.
- Processed continuous backend request execution pipelines with less than 200 ms latency.
- Reduced manual attendance tracking overhead by 80% through automated cloud event logging.

EDUCATION

Nagarjuna College of Engineering and Technology, Bengaluru

2023 – 2027

Bachelor of Engineering (B.E.) in Computer Science (AI & ML)

CGPA: 9.14

CERTIFICATIONS

- AWS Academy Graduate:** Cloud Foundations (100% coursework completed)
- Google Cloud Career Launchpad:** Cloud Architecture & Hands-on Fundamentals
- NPTEL Certification:** The Joy of Computing Using Python (Top Tier Score)
- AI Agents Specialization:** Workflow Automation & Prompt Engineering
- Full-Stack Web Development Bootcamp:** HTML, CSS, JavaScript, React.js, Node.js

ACHIEVEMENTS

- Solved 100+ Data Structures & Algorithms challenges on LeetCode.

LANGUAGES

- Kannada:** Native
- English:** Professional Working Proficiency (Full fluency)
- Hindi:** Elementary Proficiency
